FOCUS FOR THE YEAR

Many hurdles have been overcome and avoided in 2006, but there are still more to be faced. By clearly understanding that ones inner motive determines the outcome of their journey, you will then have greater clarity as to which path to take. Each step you take, based on your free will, then manifests outcomes, good or bad. Therefore, link yourself to the Heart and Mind of God, being mindful that the path is often arduous and difficult. Many are called, but few are chosen, because they fail to understand and interpret correctly the "tests" and guidance given. Do not fall prey to human frailties that lead to discord and despair. 2007 is a year of accomplishment, if you have the eyes to see and the ears to hear the insights given that are subtle, but yet powerful. So, do not falter, do not fail, do not fall, but know for every step you take you are never alone and only have to ask with SINCERITY and your questions will be answered, your wish granted.
